You'll read true stories of people who were miraculously aided by Gabriel, and learn how you too can receive assistance with your messenger work, communication, and parenting.

## So Many Books

"Gabriel Zaid's defense of books is genuinely exhilarating. It is not pious, it is wise; and its wisdom is delivered with extraordinary lucidity and charm. This is how Montaigne would have written about the dizzy and increasingly dolorous age of the Internet. May *So Many Books* fall into so many hands."—Leon Wieseltier  
"Reading liberates the reader and transports him from his book to a reading of himself and all of life. It leads him to participate in conversations, and in some cases to arrange them...It could even be said that to publish a book is to insert it into the middle of a conversation."—from *So Many Books*  
Join the conversation! In *So Many Books*, Gabriel Zaid offers his observations on the literary condition: a highly original analysis of the predicament that readers, authors, publishers, booksellers, librarians, and teachers find themselves in today—when there are simply more books than any of us can contemplate. "With cascades of books pouring down on him from every direction, how can the twenty-first-century reader keep his head above water? Gabriel Zaid answers that question in a variety of surprising ways, many of them witty, all of them provocative."—Anne Fadiman, Author of *Ex-Libris*  
"A truly original book about books. Destined to be a classic!"—Enrique Krauze, Author of *Mexico: Biography of Power*, Editor of *Letras Libres*  
"Gabriel Zaid's small gem of a book manages to be both delectable and useful, like chocolate fortified with vitamins. His rare blend of wisdom and savvy practical sense should make essential and heartening reading for anyone who cares about the future of books and the life of the mind."—Lynne Sharon Schwartz, Author of *Ruined by Reading: A Life in Books*  
"Gabriel Zaid is a marvelously elegant and playful writer—a cosmopolitan critic with sound judgment and a light touch. He is a jewel of Latin American letters, which is no small thing to be. Read him—you'll see."—Paul Berman  
"'So many books,' a phrase usually muttered with despair, is transformed into an expression of awe and joy by Gabriel Zaid. Arguing that books are the essential part of the great conversation we call culture and civilization, *So Many Books* reminds us that reading (and, by extension, writing and publishing) is a business, a vanity, a vocation, an avocation, a moral and political act, a hedonistic pursuit, all of the aforementioned, none of the aforementioned, and is often a miracle."—Doug Dutton  
"Zaid traces the preoccupation with reading back through Dr. Johnson, Seneca, and even the Bible ('Of making many books there is no end'). He emerges as a playful celebrant of literary proliferation, noting that there is a new book published every thirty seconds, and optimistically points out that publishers who moan about low sales 'see as a failure what is actually a blessing: The book business, unlike newspapers, films, or television, is viable on a small scale.' Zaid, who claims to own more than ten thousand books, says he has sometimes thought that 'a chastity glove for authors who can't contain themselves' would be a good idea. Nonetheless, he cheerfully opines that 'the truly cultured are capable of owning thousands of unread books without losing their composure or their desire for more.'"—New Yorker

## Finding Gabriel

Colonel Gabriel de Laurent departed for the war intending to die. After a decade of bloodstained battlegrounds while fighting in Napoleon's army, Gabriel returns to the streets of Paris a shattered and haunted soul. Plagued by inner demons, he swallows the barrel of his flintlock pistol and pulls the trigger. But fate has a different plan. Ariahe Larochelle is a survivor. Orphaned at twelve and victim to a devastating crime, she has learned to keep her back to walls and to trust no one. But when she finds a gravely injured soldier washed up on the River Seine, she's moved by compassion. In spite of her reservations, she rescues him from the icy water and brings him into her home. Now scarred inside and out, Gabriel discovers a kindred spirit in Ariahe – and feelings he imagined lost forever reawaken as he observes her strength in the face of adversity. But when Ariahe's own lethal secrets unfold, their new love is threatened by ancient ghosts. Can Gabriel and Ariahe find hope in the wreckage of their pasts – or will the cycle of history repeat again? Perfect for fans of Gaelen Foley's *Lord of Ice* and Judith James's *Broken Wing*, *Finding Gabriel* features all the dark romance, searing passion, and historical intrigue of *The Phantom of the Opera* and *Les Misérables*.

## **Gabriel's Rebellion**

*Gabriel's Rebellion* tells the dramatic story of what was perhaps the most extensive slave conspiracy in the history of the American South. Douglas Egerton illuminates the complex motivations that underlay two related Virginia slave revolts: the first, in 1800, led by the slave known as Gabriel; and the second, called the 'Easter Plot,' instigated in 1802 by one of his followers. Although Gabriel has frequently been portrayed as a messianic, Samson-like figure, Egerton shows that he was a literate and highly skilled blacksmith whose primary goal was to destroy the economic hegemony of the 'merchants,' the only whites he ever identified as his enemies. According to Egerton, the social, political, and economic disorder of the Revolutionary era weakened some of the harsh controls that held slavery in place during colonial times. Emboldened by these conditions, a small number of literate slaves--most of them highly skilled artisans--planned an armed insurrection aimed at destroying slavery in Virginia. The intricate scheme failed, as did the Easter Plot that stemmed from it, and Gabriel and many of his followers were hanged. By placing the revolts within the broader context of the volatile political currents of the day, Egerton challenges the conventional understanding of race, class, and politics in the early days of the American republic.

## **Gabriel's Storm**

Will he get to the boat in time to save anyone trapped? Sam wakes to discover he's been rescued from a storm by a brooding, handsome stranger with a tragic past. He remembers nothing except the fear that stalks him every time he closes his eyes. Gabriel finds himself unwillingly attracted to his houseguest, and Sam just wants to take away the pain in the eyes of the lonely widower. But first they need to find out who Sam is and why he's having nightmares. Can Gabriel and Sam save each other and find a second chance at love? A heart-warming tale of love and healing broken hearts with a taste of suspense.

Though little more than a settlement surrounded by mountains, Macondo has its wars and disasters, even its wonders and its miracles. A microcosm of Columbian life, its secrets lie hidden, encoded in a book, and only Aureliano Buendía can fathom its mysteries and reveal its shrouded destiny. ## **Waiting with Gabriel**

We turned toward the blazing candles as one, watching in horror as they landed on the floor. The kerosene caught, the old floorboards immediately bursting into flames with a whoosh. As we watched in shock, the fire started around the room in both directions, surrounding us in seconds. We were trapped! "Gabriel Celtic!" I heard the man say from the hallway. "You have meddled one too many times in the affairs of God. He has determined that this is your day to die...enjoy your coming hell!" "Bastard!" I shouted after him, his laughter only renewed at my words. Turning toward Abby, I found her still transfixed, even as a line of flames approached her position. My heart stopped as I sprinted toward her, wrapping my arms around her waist and swinging her around, narrowly escaping the line of fire as it passed. When the passing fire reached the center of the room, it branched out left and right...creating an eerie cross that burned in the center of the floor...our final message from the man! "Bastard," I repeated again helplessly under my breath. We both glanced around the room, glumly taking in our quickly deteriorating situation. The room was rapidly being devoured by the fire, and the smoke was already choking us to tears. Seeing a burning chair against the wall, I grabbed it and ran toward the curtained window, flinging it through the material at the last second. The shattering of glass that met my ears was a welcome sound, even as the added air promptly hiked up the level of the fire. Grabbing Abby's hand, her eyes were wide as I shouted, "One chance kid, let's do this!" We both started running toward the wide window, the curtains that blocked it burning at full intensity. Jumping blindly, I said a quick prayer as our bodies were propelled through the burning fabric... into nothingness...

## **One Hundred Years of Solitude**

A chance visit to seventies rock star Lester Jones crystallizes the turbulent emotions inside Gabriel, and helps him to recognize and engage with his gift . . . 'A charming, light-textured fable about talent, about how single-minded creativity might embrace and even be buoyed by the heartbreaking muddle of everyday life.' Observer

## **Genealogy of David Jones**

They Must Be Stopped is New York Times bestselling author Brigitte Gabriel's warning to the world: We can no longer ignore the growth of radical Islam—we must act soon, and powerfully. Drawing from seventh-century teachings, Gabriel probes into how fundamentalist Islam, under the guise of religious liberty, perpetuates hatred towards western values while exploiting the U.S. legal system. This crucial work takes a hard look at madrassas, flagging their surge in America as part of a rising radical army on U.S. soil. Gabriel fearlessly critiques an overbearing climate of political correctness that often stifles candid discussions about radical Islam. She passionately advocates that America must shed its restraint, questioning its complacency towards this growing internal threat, and demand its representatives to take protective action. Delving into its religious and historical basis, the encroachments across the globe, and systemic abuses of democracy in the name of religion, *They Must Be Stopped* serves as a clarion call to the world.

Once again, Nikki Kelly looks deeply into the heart and soul of good and evil to create a romantic, action-packed reading adventure.

## **The Sleeping Witness**

Brigitte Gabriel lost her childhood to militant Islam. In 1975 she was ten years old and living in Southern Lebanon when militant Muslims from throughout the Middle East poured into her country and declared jihad

against the Lebanese Christians. Lebanon was the only Christian influenced country in the Middle East, and the Lebanese Civil War was the first front in what has become the worldwide jihad of fundamentalist Islam against non-Muslim peoples. For seven years, Brigitte and her parents lived in an underground bomb shelter. They had no running water or electricity and very little food; at times they were reduced to boiling grass to survive. Because *They Hate* is a political wake-up call told through a very personal memoir frame. Brigitte warns that the US is threatened by fundamentalist Islamic theology in the same way Lebanon was—radical Islam will stop at nothing short of domination of all non-Muslim countries. Gabriel saw this mission start in Lebanon, and she refuses to stand silently by while it happens here. Gabriel sees in the West a lack of understanding and a blatant ignorance of the ways and thinking of the Middle East. She also points out mistakes the West has made in consistently underestimating the single-mindedness with which fundamentalist Islam has pursued its goals over the past thirty years. Fiercely articulate and passionately committed, Gabriel tells her own story as well as outlines the history, social movements, and religious divisions that have led to this critical historical conflict.

## **They Must Be Stopped**

A popular figure in religious works of art, the archangel Gabriel is most famous for the Annunciation: telling the Virgin Mary that she would give birth to the Messiah. God's messenger is also known as the Islamic angel of truth, the archangel of emotions and dreams, and the angel of hope and childbirth. Richard Webster's second book of the archangels series chronicles the appearances of Gabriel among Old Testament figures, Islam prophets, and modern philosophers and artists. Webster then offers an array of techniques for contacting the angel of Annunciation, who can help with inspiration, purification, fertility, childbirth, achieving a fresh start, seeing the future, interpreting dreams/visions, developing clairvoyance, and overcoming limitations, such as doubt and fear.

## **Love and Capital**

For sceptics, angels may be no more than metaphors: poetic devices to convey, at least for those with a religious sensibility, an active divine interest in creation. But for others, angels are absolutely real creatures: manifestations of cosmic power with the capacity either to enlighten or annihilate those whose awestruck paths they cross. Valery Rees offers the first comprehensive history of these beautiful, enigmatic and sometimes dangerous beings, whose existence and actions have been charted across the eons of time and civilization. Whether exploring the fevered visions of Ezekiel and biblical cherubim; Persian genii; Arab djinn; Islamic archangels; the austere and haunting icons of Andrei Rublev; or Wim Wenders' *Wings of Desire* and the more benign idea of the watchful guardian angel, the author shows that the ubiquity of these celestial messengers reveals something profound, if not about God or the devil, then about ourselves: our perennial preoccupation with the transcendent.

## **Because They Hate**

Jon Gabriel lost over 100 kilos without dieting or surgery and amazingly his body shows almost no sign of ever having been morbidly obese. His totally unique and groundbreaking approach to losing weight is backed by solid, cutting edge obesity research from over four years of full-time investigation of the roles of

biochemistry, neurobiology, quantum physics and human consciousness in weight-loss. The result is a method that defies \"common sense wisdom\" and yet achieves dramatic lasting benefits. Celebrity obesity survivors like Muhammad Ali's daughter Khaliah and Robin Moran, star of The Discovery Channel's show Super Obese, are strong advocates of Jon's Weightloss approach, which has also been featured on A Current Affair and Today/Tonight in Australia as well as on numerous radio shows and newspaper articles internationally. In addition to telling Jon's own story of his amazing transformation, the book reveals why diets don't work and explains a truly unique and revolutionary diet-free way to lose weight. It's based on the fact that your body has an internal logic that determines how fat or thin you will be at any given time. The way to lose weight is not to struggle or to force yourself to lose weight but to understand this internal logic and work with it so that your body wants to be thinner. When your body wants to be thinner, weightloss is inevitable and becomes automatic and effortless. You simply crave less food, you crave healthier foods, your metabolism speeds up and you become very efficient at burning fat, just like a naturally thin person. And that's the real transformation - to transform yourself into a naturally thin person, so that you can eat whatever you want whenever you want and still be thin, fit and vibrantly healthy.

## The English Reports: Common Pleas

I hope that this book will be widely read, and I especially commend it to four classes of persons: I. For myself I have come across nothing more important than M. Marcel's writings here and elsewhere on the problem of metaphysics. I say problem advisedly: for we are all of us these days in the end puzzled as to what exactly metaphysics is. The strict Thomist has his answer: so has the positivist: so too the Biblical theologian who is much too ready to find in the decay of ontology an argument for the authenticity of 'Biblical perspectives'. M. Marcel was trained in the tradition of idealism: and he knew the influence both of Bergson and of W. E. Hocking. His conversation with himself certainly betrays their influences: but it is of far wider significance. Professor Ayer and Dr. E. L. Mascall have their answer to the question what ontology is: they have their formulae. Marcel probes beneath these answers; for him ontology is much more than a body of doctrine. It is the intellectual expression of the human situation; what is expressed in the syllogisms of, for instance, Père Garrigou-Lagrange, is valid only in so far as it catches and summarises the very being of man and the universe, as that being is lived through and met with by man in his pilgrimage through life. I find as I read M. Marcel that the frontiers are blurred reflection, metaphysics, spirituality. And that is the strength of his seemingly inconsequent method. In a way he is too wise to suppose that the arguments of the philosophia perennis are enough in their abstract form to convince a man; they only carry conviction in relation to a whole experience of life of which they are the expression. The issues between the Thomist, the positivist, the idealist are not issues simply of doctrine but of life; and to see what they are, one must probe, stretching language beyond the frontiers of poetry, somehow to convey the issues as things through which men live. 2. The book should be studied closely by the moralist whether he be philosopher or moral theologian. Where some of the most familiar ethical ideas are concerned, Marcel reminds us of their 'inside' when we so often in our discussion think simply of their 'outside'. What is a promise? We have our answer pat, our formula which permits us to go on with the discussion of our obligations to keep the promises we have made and so on. We don't wait to probe. I find myself inevitably using that word 'probe' again and again in connection with M. Marcel: for what he does is to probe the unsuspected profundities of the familiar. Most professional students of ethics are morally philistine, men who give little time to penetrating the 'inside' of the ideas they are handling. And there Marcel pulls them up short. 3. The book should be widely read by the many Christian 'fellow-travellers' of today, those who follow, as it were, afar off the Christian way without themselves coming yet to the point of an act of faith in the Crucified. Its very incompleteness will respond to their groping anxiety, and it will enrich their vision of life. And this it can do because it eschews dogmatic exposition seeking rather to shew the inside of the truly Christian way of life. Fidelity, hope, charity, mystery—these are fundamental categories of the Christian way: and of all these Marcel has

much to say, which is in every way fresh and yet at the same time rooted in the tradition of Catholic Christianity. The reader of such a work as Albert Camus' *La Peste*, with its preoccupation with the problem of an atheistic sanctity, will understand M. Marcel. In a way he challenges the possibility of Camus' vision; and he does so not on dogmatic grounds but by an analysis of holiness and goodness which shews indirectly their inseparability from acknowledgment of the all-embracing mystery of God. An age which has known evil as ours has and does still know it, is inevitably interested in goodness; and it is with goodness, as something inevitably issuing out of God because a gift from him, that Marcel's studies deal. 4. And lastly I commend this book because at a time when minuteness and subtlety of mind are too often the prerogatives of the light-heartedly destructive, he reminds us that a true minuteness and a true intellectual subtlety are rooted in humility and purity of heart, and manifest the soil in which they are nourished by graciousness whose charm none can escape and a strength of argument which none can break.

## **From Gabriel to Lucifer**

Gabriel Okara, a prize-winning author whose literary career spans six decades, is rightly hailed as the elder statesman of Nigerian literature. The first Modernist poet of anglophone Africa, he is best known for *The Fisherman's Invocation* (1978), *The Dreamer, His Vision* (2005), and for his early experimental novel, *The Voice* (1964). Arranged in six sections, *Gabriel Okara: Collected Poems* includes the poet's earliest lyric verse along with poems written in response to Nigeria's war years; literary tributes and elegies to fellow poets, activists, and loved ones long dead; and recent dramatic and narrative poems. The introduction by Brenda Marie Osbey contextualizes Okara's work in the history of Nigerian, African, and English language literatures. *Gabriel Okara: Collected Poems* is at once a treasure for those long in search of a single authoritative edition and a revelation and timely introduction for readers new to the work of one of Africa's most revered poets.

## **First Proofs of the Universal Catalogue of Books on Art**

From populist propaganda attacking knowledge as 'fake news' to the latest advances in artificial intelligence, human thought is under unprecedented attack today. If computers can do what humans can do and they can do it much faster, what's so special about human thought? In this new book, bestselling philosopher Markus Gabriel steps back from the polemics to re-examine the very nature of human thought. He conceives of human thinking as a 'sixth sense', a kind of sense organ that is closely tied our biological reality as human beings. Our thinking is not a form of data processing but rather the linking together of images and imaginary ideas which we process in different sensory modalities. Our time frame expands far beyond the present moment, as our ideas and beliefs stretch far beyond the here and now. We are living beings and the whole of evolution is built into our life story. In contrast to some of the exaggerated claims made by proponents of AI, Gabriel argues that our thinking is a complex structure and organic process that is not easily replicated and very far from being superseded by computers. With his usual wit and intellectual verve, Gabriel combines philosophical insight with pop culture to set out a bold defence of the human and a plea for an enlightened humanism for the 21st century. This timely book will be of great value to anyone interested in the nature of

human thought and the relations between human beings and machines in an age of rapid technological change.
